

"Small yet strong in the love of God, like Saint Francis of Assisi, all of us, as Christians, are called to watch over and protect the fragile world in which we live, and all its peoples."

(Pope Francis, *The Joy of the Gospel*, n. 216)

**April

Easter Sunday "If the simple fact of being human moves people to care for the environment of which they are a part, Christians in their turn "realize that their responsibility within creation, and their duty towards nature and the Creator, are an essential part of their faith". Pope Francis, *Laudato Si'*

Take some time today to reflect on all of the activities that you have performed during Lent, and how they have brought you into greater harmony with God's plan for Creation and all life. Share what you learned with others.
